+ MORE INFO AT
motorhomes-chausson.co.uk

Combining an innovative legacy with attractive designs and French savoir-faire.

In 1980, CHAUSSON revealed its first fitted van, the Odysée 4000, at the Paris Motor Show. Its success led to the rapid rollout of new models, including the brand's first motorhome: the Acapulco overcab motorhome.

Over the years and through various innovations, CHAUSSON has been able to win the hearts of all kinds of travellers, from families to explorers in search of new horizons.

Indeed ever since our launch, we have constantly pushed back the boundaries of engineering and created practical solutions to make every trip unforgettable. From optimising indoor areas or cutting-edge technology; when it comes to providing a comfortable, convenient experience, nothing has been left to chance. All this innovation would be for nothing without the watchful eye and outstanding expertise of our employees, who bring our vehicles to life.

CHAUSSON doesn't just sell vehicles; it builds relationships and passionate communities – like #MyChausson, for example – who share the brand's love for travel and freedom.

So, are you ready to innovate with us at CHAUSSON?!

managed forests.

All paper
is sorted and
recycled.

IMPORTANT INFORMATION: Some models photographed in this catalogue may be shown with equipment supplied as an option. The characteristics of photographed models may vary from one country to the next. Despite the care taken in producing this catalogue, this cannot be viewed as a contractual document. CHAUSSON reserves the right to modify its models without prior notice. CHAUSSON cannot be held liable for any modifications made by its suppliers nor typographical errors when printing these documents. It is forbidden to reproduce any text or documents, even in part. Do not litter the public highway. Your dealer is at your disposal to advise you and provide you with any additional information. The vehicles have been type-approved in accordance with Directive 2007/46 and comply with current European regulations. Where there are multilingual versions, the French text is the binding version. The optional towing equipment can in certain cases change the number of passengers on the car registration papers. Your dealer will be able to give you more information. Kerb weight: the kerb weight includes the weight of the driver (75 kg), 20 L of clean water, 90% fuel and 100% gas. The kerb weights indicated take into account only standard ex-works equipment. European regulations tolerate a difference of +/- 5% on kerb weight ready for use. The manufacturer reserves the right to change this kerb weight. You may be able to find certain heavy accessories like large blinds or batteries in the marketplace. The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded. The clean water reservoir capacity approved for road use is 20 L, and must comply with the regulations governing the technically acceptable laden weight. The user is responsible for adapting the load and the number of people on board according to the vehicle's payload. To do this, the clean water reservoir capacity can be adjusted by the user to avoid reducing the number of passengers.

Why choose

CHAUSSON

3 good reasons

1

FOR OUR UNIQUE FRENCH SAVOIR-FAIRE

THE FACTORY

Made in France. Surrounded by the vineyards of the Vallée du Rhône, the main manufacturing site at Tournon-sur-Rhône (Ardèche) is one of the largest in Europe, covering 200,000 sq.m, an area equivalent to 33 football fields.

1000

EMPLOYEES

Many different teams of professionals are needed to manufacture our motorhomes: carpenters, electricians, decorators, engineers, etc.

8 500

MOTORHOMES AND VANS

The number of vehicles sold by Trigano VDL during a single season.

CAMPUS TRIGANO TRAINING

This is the place where our dealers are trained. In addition, classes were recently organised at the factory for new employees.

2

FOR OUR ESSENTIAL FEATURES

Increased autonomy

Thanks to the possibility of adding solar panels and a second battery (as an option), as well as a +/- 100 L water tank*.

Weight saving, more time, more comfort

Thanks to the diesel fuel heating that can be used whilst driving.

A technical area

Thanks to the all-in-one Technibox.

Optimised water flow

Thanks to a shower tray with double drain.

Easy storage while saving space

Garage holds with heating and lighting, equipped with electrical sockets and 2 access doors (except X).

* The clean water tank capacity approved for road use is 20L.

3

FOR OUR ALL-SEASON VEHICLES

IRP STRUCTURE

Better Insulation

Thanks to its renowned XPS STYROFOAM insulation. Remember: if it isn't blue, it isn't STYROFOAM, so don't forget to check!

Better Resistance

thanks to the thickness of the roof and floor: 63.5 mm floor, 54.5 mm roof (low profiles) which is thicker than sector standards, feel free to compare them! An effective combination of wood/composite (overcabs & low profiles) which strengthens the framework of our internal walls, floors and roofs, combining the durability of composite with the outstanding strength of solid wood. There's nothing else like it on the market!

Better Protection

thanks to polyester in the walls, strengthening the roof and under the floor. This can be found in every CHAUSSON vehicle, even the most basic models! Whatever the finish level, the structure of our living areas adheres to the same high quality standard.

GRADE 3

Market-leading insulation certified by a standard.

It's one thing to say that we offer the best; it's another to prove it objectively. The EN1646-1 standard is unquestionable: To be awarded its highest level (Grade 3), it needs to be proven that, at an outdoor temperature of -15 °C, the temperature inside the vehicle is able to reach +20 °C in under 4 hours. Cold chamber testing has been carried out in Germany (TRUMA) and France (EBERSPÄCHER KALORI). Our tests have proven it; both our low profiles and overcabs* are designed to endure harsh winters and temper the summer heat.

* Overcabs with 5500 W heating.

7-YEAR WATER INGRESS WARRANTY

Subject to an annual inspection by an approved member of our network.

STRIKING

INNOVATIONS

SMART LOUNGE

627, 630, 640, 650, 720, 788, 797, 798

This clever design offers a beautiful lounge that brings together comfort and function, both on the road and during stopovers.

Each of the two benches can quickly be transformed into comfortable (ISOFIX-certified) seats for road travel. The Isofix system makes it easier to install the car seat and adds a third anchor point to keep your children safe.

EASYBOX

720

This modular storage unit proves that storage is no problem, even in a compact motorhome:

- › **on the outside:** makes it easy to adjust the height of the garage for storing a bike.
- › **on the inside:** there are many easy-to-reach storage areas (Model 720).

BUTTERFLY BED

S514, S614

Foldable "butterfly" bed providing easy access to storage or increase the size of the garage.

EASYBED

788, 798

The EasyBed system lets you raise or lower the bed to adjust the size of the garage hold area according to your needs.

Easybed

T-SYSTEM

The T-System is used to precisely adjust the table height, electrically. It comes in very handy when you set up the fold-down bed. Thanks to the ingenious and understated Tulip table, the space is completely modular. A unique CHAUSSON innovation.

T-System

You'll find this in all the maxi lounge low profiles

FOCUS ON

BASE VEHICLES

At Chausson, we have chosen leading brands, with a chassis specifically designed for motorhomes and an after-sales network specially equipped and trained for the leisure market.

Ford and CHAUSSON have been in partnership for over 40 years. With over 7 million models sold worldwide, the legendary Ford Transit needs no introduction.

Our services

REDEFINE THE EXPERIENCE

In our unending search for quality and innovation, we won't settle for merely providing exceptional products. We also providing a wide variety of services that have been specifically designed to meet your needs. Listening to our customers is a key part of what we do here at CHAUSSON, and we are always eager to hear your feedback and suggestions to help make our services even better.

A meticulously chosen network of dealerships

Each one of our partners has been carefully selection to represent our commitment to customer satisfaction. This means they provide tailored advice, active listening and service with a smile. We believe in a human approach, please do not hesitate to drop into one of our dealers.

Finding your nearest dealer couldn't be easier

Just visit our website and enter your address or postcode.

Looking for spare parts?

Trigano Service is the largest spare parts and accessories platform in Europe for motorhomes, caravans and mobile homes. Our dealers use Trigano Service to find spare parts for every vehicle brands in the Trigano Group, as well as parts, components and accessories that can be assembly on any of the vehicles sold in Europe.

A customer service centre

By choosing a CHAUSSON motorhome, you can expect exceptional service as one of our valued customers, with access to a vast network of dealerships across Europe, each of which is ready to help you make the most of your recreational vehicle.

On top of this, our Customer Relations department works alongside your CHAUSSON dealership to provide you with support and advice.

You can contact us by email: contact@chausson.tm.fr.

TRIGANO VDL – Customer Welcome Centre:
130 route de Lamastre – 07300 Tournon sur Rhône, France

ONLINE

A dedicated website

It's important to have access to a wider range of information before you can make an informed decision when choosing your vehicle.

Our multilingual website is here for you. From the latest news, errata sheets, catalogues and downloads, our website is the most comprehensive source of information available.

We have also provided you with a variety of tools: vehicle comparison tool, choosing a vehicle based on your profile, booking an appointment with a dealership, a 360° virtual tour and more: you'll soon learn all there is to know about our motorhomes!
