# ELDDIS ENVY 2024 BROCHURE

# A history of Elddis

The multi-award-winning Elddis product is renowned for quality, driving performance and exceptional value for money. The Envy range is designed and engineered to the most exacting of standards, combining over 50 years of heritage with ultra-modern features and stylish comfort.

In 2014 we launched our own dealer special edition 'Envy' range which is unique to Dolphin. The intention was to offer something different and choose a high level of specification whilst ensuring the end price stayed extremely competitive. It proved incredibly popular and remains our best selling range.

The Compact and Coachbuilt ranges are built on a standard Peugeot chassis, which is not modified. Keeping the integrity of the Peugeot chassis gives the motorhomes unrivalled driving qualities. It has outstanding drive performance provided by the Peugeot Boxer 2.2 140bhp BlueHDi Turbo Diesel for better fuel efficiency with six speed gear box and Euro 6.2 engine.

Launched in 2019, the Van Conversion range goes from strength to strength with the introduction of the CV80 in 2022 to compliment the CV20 and CV40. It offers countless technological innovations that can be easily and effectively managed from the driver's seat, improving safety, increasing comfort, optimising driving performance and ensuring state-of-the-art infotainment. Fiat Ducato is synonymous with optimum safety and performance. It is equipped with advanced control and safety technology with a 2.3JTD 140bhp engine. It is built with 6 speed manual transmission as standard with Automatic transmission (140bhp or 160bhp) as cost options.
